

—Encouraging restoration and preservation of our agricultural heritage.

The mission of the Barn Quilts of Guthrie County is to promote tourism in our rural areas and celebrate the unique agricultural experience of Guthrie County. The barn quilt project allows us to showcase the natural, agricultural, and architectural beauty of our diverse county. At the same time, it allows us to highlight the quilt patterns as unique art and the historically-significant aspects of each building.

The Guthrie County Barn Quilt Project was started in 2007 by several volunteers. Although the group is no longer together, their hard work and artistic vision left our county covered with beautiful barn quilts for both residents and visitors to enjoy.
